Iowa Public Agency Investment Trust - Diversified Portfolio Management's Discussion & Analysis (unaudited)

This section of the Iowa Public Agency Investment Trust (IPAIT) Diversified Portfolio's semi-annual Financial Report presents Management's Discussion and Analysis of the financial position and results of operations during the six-month periods ended December 31, 2024 and December 31, 2023. This information is being presented to provide additional information regarding the activities of IPAIT's Diversified Portfolio, pursuant to the requirements of Governmental Accounting Standards Board. This discussion and analysis should be read in conjunction with the Financial Statements, and the accompanying notes.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Management's Discussion and Analysis provides an introduction to and overview of the basic financial statements of IPAIT's Diversified Portfolio. The following components comprise the financial statements:

1) Statements of Fiduciary Net Position, 2) Statements of Changes in Fiduciary Net Position, and 3) Notes to Financial Statements.

- The Statements of Fiduciary Net Position shows the financial position (assets and liabilities) of the portfolio as of December 31.
- The Statements of Changes in Fiduciary Net Position display the results of operations (income and expenses), additions (net investment income, unit sales, and reinvestments) and deductions (dividends and unit redemptions) of the portfolio for the six-month periods ended December 31, 2024 and December 31, 2023.
- The Notes to Financial Statements describe significant accounting policies and disclose summary security transaction amounts and fund expenses of the portfolio.

CONDENSED FINANCIAL INFORMATION AND FINANCIAL ANALYSIS

Year-over-year changes in most financial statement amounts reported in IPAIT's Diversified Portfolio are most significantly impacted by the level of average net position (which fluctuates based on the overall levels of participant/unitholder invested balances). Additionally, changes in the short-term interest rate environment (which follows the general trend established by monetary policy set by the Federal Reserve) contribute to year-over-year variances in the amount of investment income earned by the portfolio.

Condensed financial information and variance explanations for the six-month period ended December 31, 2024, as compared to the same period ended December 31, 2023, follow.

Iowa Public Agency Investment Trust – Diversified Portfolio

Notes to Financial Statements

(1) Organization

Iowa Public Agency Investment Trust (the “Trust”) is a common law trust established under Iowa law pursuant to Chapter 28E and Sections 331.555 and 384.21, Iowa Code (1987), as amended, which authorizes Iowa public agencies to jointly invest monies pursuant to a joint investment agreement. IPAIT is an S&P Global Ratings ‘AAAm’ rated money market fund pursuant to the requirements of Iowa Code 12B.10. IPAIT was established by the adoption of a Joint Powers Agreement and Declaration of Trust as of October 1, 1987, and commenced operations on November 13, 1987. The Joint Powers Agreement and Declaration of Trust was amended on August 1, 1988, and May 1, 1993, and September 1, 2005; and further amended as of September 1, 2017. The accompanying financial statements include activities of the Diversified Portfolio. The objective of the Diversified Portfolio is to maintain a high degree of liquidity and safety of principal through investment in short-term securities as permitted for Iowa public agencies under Iowa law. U.S. Bank Institutional Trust & Custody (US Bank) serves as the Custodian. Companies collectively known as PMA Financial Network (PMA) serve as the Administrator, Investment Adviser and Marketer. PMA Financial Network, LLC serves as the Administrator, PMA Asset Management, LLC serves as the Investment Adviser and PMA Securities, LLC serves as the Marketer.

In 2010, the Board of Trustees approved a resolution ceasing the investment operations of the Direct Government Obligation Portfolio and transferring assets to the Diversified Portfolio. The transfer was facilitated through SEC Rule 17a-7 at fair value. The Direct Government Obligation Portfolio remains available for future investment if IPAIT participants should request it in the future.

(2) Significant Accounting Policies

The significant accounting policies followed by IPAIT are as follows:

Basis of Accounting

An investment trust fund, which is a type of fiduciary fund, is used to account for the investment pool and accounts of the Trust. The Trust holds the assets in a custodial capacity. Because fiduciary funds are custodial in nature, they do not measure the results of operations or have a measurement focus. Fiduciary funds are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when they are incurred. Fiduciary fund equity is reported as net position held in the Trust for pool participants.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the U.S. requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increase (decrease) in net assets resulting from operations during the reporting period. Actual results could differ from those estimates.

Fair Value Measurements

The framework for measuring fair value establishes a fair value hierarchy that prioritizes the inputs used in the valuation techniques to measure fair value. The hierarchy gives the highest priority to Level 1 measurements and the lowest priority to Level 3 measurements. These inputs are summarized into three broad levels as described below:

Level 1 – quoted prices in active markets for identical securities

Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, and evaluated quotations obtained from pricing services); or

Level 3 – significant unobservable inputs (including IPAIT’s own assumptions in determining the fair value of investments)

All the investments in the Diversified Portfolio are considered Level 2 measurements.

Notes to Financial Statements (continued)

Investments in Securities

The Diversified Portfolio measures its investments at amortized cost on the Statement of Net Position pursuant to criteria established in Governmental Accounting Standards Board (GASB) Statement No. 79, *Certain External Investment Pools and Pool Participants*. The criteria in GASB Statement No. 79 specifies that an external investment pool must transact with their participants at a stable net asset value per share and meet requirements for portfolio maturity, portfolio quality, portfolio diversification, portfolio liquidity, and shadow pricing. The Diversified Portfolio meets all of the necessary criteria in GASB Statement No. 79 to measure all of the investments in the Diversified Portfolio at amortized cost, which approximates fair value. This involves valuing a portfolio security at its original cost on the date of purchase, and thereafter amortizing any premium or discount on the interest method. The net asset value of the Diversified Portfolio is calculated daily. Investment policies are followed to maintain a constant net asset value of \$1.00 per unit for the portfolio.

Security transactions are accounted for on the trade date. Interest income, including the accretion of discount and amortization of premium, is accrued daily as earned. Purchases of portfolio securities for the Diversified Portfolio aggregated \$41,587,778,949 and \$46,195,678,386 for the six-month periods ended December 31, 2024, and 2023, respectively. Proceeds from the maturity and sale of securities for the Diversified Portfolio aggregated \$41,659,768,042 and \$46,033,111,983 for the six-month periods ended December 31, 2023, and 2022, respectively.

The Diversified Portfolio is authorized by investment policy and statute to invest public funds in obligations of the U.S. government, its agencies and instrumentalities; certificates of deposit and other evidences of deposit at federally insured Iowa depository institutions approved and secured pursuant to Chapter 12B of the Code of Iowa; federally insured depository institutions through the Insured Cash Sweep (ICS) service and the Demand Deposit Marketplace Program (DDM) regardless of location pursuant to Chapter 12C of the Code of Iowa; and repurchase agreements, provided that the underlying collateral consists of obligations of the U.S. government, its agencies and instrumentalities and that the Diversified Portfolio's custodian takes delivery of the collateral either directly or through an authorized custodian.

In connection with transactions in repurchase agreements, it is the Diversified Portfolio's policy that the value of the underlying collateral securities exceeds the principal amount of the repurchase transaction, including accrued interest at all times. If the seller were to default on its repurchase obligation and the value of the collateral declines, realization of the collateral by the Diversified Portfolio may be delayed or limited.

ICS are networks of banks offering demand deposit accounts below the standard FDIC insurance maximum so that principal and interest are eligible for full FDIC insurance. The Diversified Portfolio held \$185,093,522 and \$122,148,431 in the ICS program as of December 31, 2024 and 2023, respectively.

Income Tax Status

The Trust is exempt from both state and federal incomes taxes pursuant to Section 115 of the Internal Revenue Code.

Distributions to Participants

Dividends declared and accrued daily from net investment income and net realized gains, if any, are paid in cash or reinvested in the Trust based upon each participant's pro rata participation in the pool.

Investment and Redemption Provisions

The Diversified Portfolio allows participants to purchase and redeem units on a daily basis, subject to limitations whereby liquidity of the fund may require redemptions to be delayed until applicable investments have matured or are liquidated.

(3) Fees and Expenses

PMA Financial Network receives 0.19% of the average daily net asset value up to \$150 million, 0.16% from \$150 to \$250 million, and 0.13% exceeding \$250 million for investment adviser and administrative fees. For the six-month periods ended December 31, 2024 and 2023, the Diversified Portfolio paid \$817,069 and \$703,930, respectively, to PMA for services provided.

Iowa Public Agency Investment Trust – Diversified Portfolio

Notes to Financial Statements (continued)

PMA Financial Network receives 0.06% of the average daily net asset value of the portfolio for marketing fees. For the six-month periods December 31, 2024 and 2023, the Diversified Portfolio paid \$349,037 and \$296,896, respectively, to PMA for services provided.

US Bank receives approximately 0.0033% of the average daily net asset value of the portfolio plus transaction fees for custody services. For the six-month periods ended December 31, 2024 and 2023, the Diversified Portfolio paid \$27,775 and \$31,500, respectively, to US Bank for services provided.

Under a distribution plan, the public agency associations collectively receive an annual fee of 0.075% of the average daily net asset value for sponsorship fees. For the six-month periods ended December 31, 2024 and 2023, the Diversified Portfolio paid \$206,597 and \$154,312 to the Iowa League of Cities, \$187,323 and \$182,132 to the Iowa State Association of Counties, and \$40,259 and \$32,650 to the Iowa Association of Municipal Utilities, respectively.

In addition, the Trust is responsible for other operating expenses incurred directly by the Trust. The estimated annual other operating expenses are accrued and have averaged between 0.01 percent and 0.02 percent of the average daily net asset value and totaled \$57,350 and \$44,400 for the six month periods ended December 31, 2024 and 2023, respectively. The daily accrued expenses are paid from the Diversified Portfolio to the IPAIT Administrative Fund each month. The IPAIT Administrative Fund pays the direct expenses of IPAIT such as audit, insurance, legal, ratings fees, and other miscellaneous items. The IPAIT Administrative Fund also holds Board designated reserve funds for specific purposes. The IPAIT Administrative Fund is governed by the IPAIT Board of Trustees who approves the annual budget and reviews and approves the transaction activity and balances at each quarterly meeting.

All fees are computed daily and paid monthly. Fees waived in prior periods cannot be recovered in future periods.

(4) Risk Management

The Trust is exposed to various risks of loss related to torts; theft of, damage to, and destructions of assets; errors and omissions; and natural disasters.

The Trust maintains insurance coverage for fidelity and errors and omissions exposures. There have been no claims or settlements under the Trust insurance coverage since its organization in 1987.

(5) Subsequent Events

IPAIT has evaluated the effects of events that occurred subsequent to December 31, 2024, and there have been no material events that would require recognition in the financial statements or disclosure in the notes to the financial statements.
