Rationale

S&P Global Ratings rates the Iowa Public Agency Investment Trust – Diversified Fund (IPAIT) 'AAAm' based on its view of the quantitative characteristics of the pool's investments, as well as the strong and experienced fixed-income management team at investment advisor PMA Asset Management LLC.

For principal stability funds, we consider the sources of risk in a managed fund's portfolio and investment strategy and assess the impact that these risks could have on a fund's ability to maintain a stable or accumulating net asset value (NAV). These risks include credit quality; investment maturity; liquidity; portfolio diversification, index, and spread; management; and security-specific risks.

PMA Asset Management, LLC, and its affiliate, Public Trust Advisors, LLC, both doing business as PTMA Investment Advisors, provides investment advisory services primarily to public entities. In our view, the fixed-income management team of PTMA Investment Advisors is supported by a strong investment operations infrastructure and conservative investment practices that incorporate strict internal controls. We monitor IPAIT's portfolio statistics and investment holdings on a weekly basis.

Fund statistics as of Sept. 25, 2025

| Net asset value per share (\$) | Net assets (mil. \$) | Weighted average maturity (reset) - (days) | Weighted average maturity (final) - (days) | Seven-day yield (%) | 30-day yield (%) |
|--------------------------------|----------------------|--------------------------------------------|--------------------------------------------|---------------------|------------------|
| 1.0002                         | 1,274.89             | 38                                         | 62                                         | 3.90                | 4.04             |

Portfolio Assets

IPAIT was created following Iowa Code Chapter 28E to enable Iowa public agencies to safely and effectively invest their available operating and reserve funds. IPAIT is sponsored by the Iowa League of Cities, the Iowa State Association of Counties (ISAC) and the Iowa Association of Municipal Utilities (IAMU). The primary objectives of IPAIT, are safety of principal, liquidity, and yield.

As of Sept. 30, 2025, the portfolio comprised a diversified selection of high quality short-term debt instruments such as U.S Treasury obligations and U.S. agency securities, bank deposits, money market funds, and repurchase agreements.

History/Trends

To mitigate IPAIT's sensitivity to interest rate fluctuations, the pool's weighted average maturity to reset is actively managed within a 60-day limit. During the review period, the pool maintained an average weighted average maturity to reset of 34 days, aligning with its conservative approach. Reflecting its money market-like investment strategy, IPAIT's return profile closely tracks the S&P Rated Government Investment Pool Index and generally varies in response to interest rate movements.

As of Sept. 30, 2025, IPAIT reported assets under management of \$1.27 billion--a decrease of approximately \$130 million year over year. Despite seasonal redemption cycles, the pool's assets have remained relatively steady over the past 12 months. In our view, its strong credit quality supports NAV stability, with an average of 100% of holdings rated 'A-1+' over the same period.
